

Clark Forklift Part

Clark Forklift Part - Currently, there are over 350,000 Clark lift trucks performing globally, and more than 250,000 in commission in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive companies in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, covers more than 120,000 specific items designed for 20 unique models of lift trucks and automated equipment. Your local Clark Seller is your complete source for availability of all your parts needs provided by Clark Totalift.

Clark has a exceptional Parts Supply team. The parts warehouses are conveniently situated in Changwon, South Korea and Louisville, Kentucky to guarantee exceptional service to both their customers and their dealers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing producers. Driven to provide the highest level of value and service to our customers, Clark remains on the cutting edge when it comes to enhancing productivity and benefiting performance.

Clark Totalift has a really impressive international support network. With over 550 locations globally, dealer representation in over 80 countries and 230 locations in North America, their high level of commitment to their clients predominates the materials handling industry.

By revolutionizing the operator restraint system protection feature, Clark proudly remains a leader of refinement in the industrial equipment and automated lift truck industry. This exceptional dedication to safety is currently a standard feature on every forklift.

Clark's continual mission to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck manufacturer across the globe to be certified with the globally approved quality standard ISO 9001 for every one of their manufacturing facilities. Furthermore, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any environmental limitations, thus placing them in a dominant market position.

Clark has preferred the extremely economical and advantageous system of "Lean Production" for its assembly plants and application of resources. This system was established to acknowledge the most successful method of manufacturing facility management and ensuring maximum efficiency. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers join together to perfect the effectiveness and brilliance of their merchandise while minimizing costs. The new value engineering agenda combines innovative product development and offers improved client support and service within the industry.
